**SURRENDER:12** This year, pastors, mission & ministry workers have the opportunity to attend a Professional Standards Workshop during the Friday at SURRENDER with Mick Duncan. The two-part session will look at a model for wellbeing within ministry, as well as a framework for pastoral care that enables us to walk positively and helpfully with marginalised people.

Mick Duncan (Alongsiders – NZ) has lived in the slums of Manila, engaged in church planting, mercy ministries, community development and justice making.

*This is approved as an accredited Professional Standards Training Workshop for Pastoral Leaders with the Baptist Union of Victoria, Churches of Christ in Victoria and Tasmania and the Community Christian Churches of Australia.*
